Maybe even better than free.

Just upload the file you want to share with your friends and we send you a download link to your file. You can give this download link to your friends by mailor instant messenger. The cost of that data transfer is covered by your internet service or the data plan on your phone. You don't need any special softwareinstalled to be able to download your files. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps havelimits to the size of files that can be transferred within their apps. Simply upload your file and share the link. File is free to use with no gotchas and no hiddenfees. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. If only we could, we surely would! On the other hand,using file can actually save you money. So try our free and simple filehosting service now. Alternatively you can choose to share your download links on blogs,forums and social networking sites. Our service is completely free for everyone. filehosting provides an easy possibility for you to send large files to yourfriends. Using file, you can circumvent those limits without paying to upgrade your team chat service. Keep your files private, or send your download links onlyto friends or family. No account or credit card is required to get started. It is also allowed to link to the download page from websites and communities. Wehave no file size limit. You can upload any type of file (movies, music, documents, images, zip files and more). There are no restrictions on the number of timesa file can be downloaded. Unfortunately, we can't make that part free. Files can be downloaded from any computer from our high speed servers. You decidewho you want to share your files with. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferredbetween your computer or phone and our servers, then from our servers to your friends device. This is easy, fast and reliable filehosting! You don't need anykind of premium-accounts. Any file in any format can be uploaded and downloaded for free. Files transferred the old-fashioned way tend to pile up and beforgotten about, eventually costing you money in data storage fees.
